## WHO YOU GONNA CALL FOR HELP AT GA AIRPORTS?

Emergencies can happen. Knowing who to call can help expedite responders and help save valuable time. All three Salt Lake City-run airports are served by different emergency dispatch centers.

Emergency calls at Salt Lake City International Airport (SLC) are routed to the SLC Control Center. The center is staffed continuously and is located in Terminal 1 at SLC. All emergencies at SLC should be called into 801-575-2911. Direct dialing the center will save valuable time in an emergency. Non-emergency calls should be directed to 801-575-2401.

Emergency calls at South Valley Regional Airport are handled by the Valley Emergency Communications Center (VECC). Issues requiring immediate law enforcement, fire and life saving response should be called into 911. Non-emergency calls requiring response from West Jordan Police and Fire can be called into 801-840-4000.

The Tooele County Sheriff's Department Dispatch handles all emergency calls for the Tooele Valley Airport. Issues requiring immediate law enforcement, fire and life saving response should be called into 911. Non-emergency calls requiring response from West Jordan Police and Fire can be called into 435-882-5600.

Notify the Airport Control Center of any 911 emergency calls made from South Valley Regional Airport and Tooele Valley Airport. Call the non-emergency line at 801-575-2401, after the 911 operator has released your call.

## ANGEL FLIGHT WEST SANTA MISSION A SUCCESS

The Utah Wing of Angel Flight West (AFW) conducted its annual Santa Flight Mission on December 8. The group delivered donated school supplies to the Hurricane Elementary in Hurricane, Utah. AFW selects a different Title 1 elementary in the state each year to receive school supplies, books and toys. South Valley Regional Airport serves as the base for these charity flights.

## ALTERNATE U42 AWOS TELEPHONE NUMBER

The primary U42 AWOS telephone line, 801-562-0271, is out of service. The system has a back-up number, 801-566-2084, that can be used until the problem is corrected.

## SLCDA GA NEWS ELECTRONIC OPTION

To receive the Salt Lake City Department of Airport's monthly general aviation newsletter by email, send a request, including your current email address, to [dave.teggins@slcgov.com](mailto:dave.teggins@slcgov.com).

# GA WINTER HANGAR PROHIBITIONS

With winter here in full force, GA tenants are reminded of required and prohibited operations in the Salt Lake City Department of Airports (SLCDA) hangars.

- Refueling aircraft in hangars, including shade hangars, is prohibited. Tenants wishing to self fuel their aircraft must obtain a self-fuel permit from airport operations. Aircraft can be no closer than 25 feet to their hangar when fueling.
- Starting aircraft in and/or taxing into and out of hangars is prohibited. Aircraft need to be pushed out of hangars to the taxi lane centerline prior to engine start.
- Power run-ups are only authorized in designated run up areas near the end of each runway.
- Enclosed T-hangars are required to have fully charged and properly inspected fire extinguishers accessible to the front hangar door at all times. Fire extinguishers must display inspection stickers from a competent authority authorized to perform inspections under Utah code.
- Only electric engine heaters are authorized for use when placed at least 16 inches above the hangar floor. The heaters must be electrically connected with at least a 12-gauge extension cord.
- Open flame space heaters are prohibited at all times. Electric space heaters can be used when fully attended and connected to a power source with at least a 12-gauge extension cord.
- Vehicles need to be parked inside the tenants leased hangar or in the parking lot while the tenant is out flying.
- Only non-corrosive ice melt can be used on the airport.

Contact General Aviation Manager Dave Teggins at [dave.teggins@slcgov.com](mailto:dave.teggins@slcgov.com) with any questions concerning hangar prohibitions.

## HELPFUL POINTS OF CONTACT

- General aviation operations, facilities maintenance, SLCDA GA newsletter, airfield and SLC Title 16 questions contact:** Dave Teggins, SLCDA General Aviation Manager, 801-556-4082-5532 or [dave.teggins@slcgov.com](mailto:dave.teggins@slcgov.com).
- Hangar lease and repair questions:** Phil Bevan, Property Management Specialist, 801-575-2957 or [phil.bevan@slcgov.com](mailto:phil.bevan@slcgov.com).
